

Test Plan / Approach is as follow:

- **Priority would be to test the important functionality of the application as per the severity of the feature.**
- **Define the scope of the testing :**
 - Scope defines the features, functional or non-functional requirements of the software that will be tested
 - Ensure the Application Under Test conforms to functional and non-functional requirements
 - Ensure the AUT meets the quality specifications defined by the client
 - Bugs/issues are identified and fixed before go live
- **Define the test methodology :**
 - Test Levels
 - 100% test coverage
 - All Manual & Automated Test cases executed
 - All open bugs are fixed or will be fixed in next release
- **Test Deliverables :**
 - Test Plan
 - Test Cases
 - Requirement Traceability Matrix
 - Bug Reports
 - Test Strategy
 - Test Metrics
 - Customer Sign Off
- **Environment requirement :**
 - Make a list of Tools like
 - Requirements Tracking Tool
 - Bug Tracking Tool
 - Automation Tool
